

Tracking your Continuing Medical Education (CME)

Mayo's learning management system has the capability of tracking your CME. To access, log into CE.mayo.edu on any computer (either inside or outside the Mayo firewall).

Next steps:

- Select Login in right upper menu bar and then enter your Mayo email or LAN ID plus password in the "Staff log in" field (lower section of dialog box).
- On next page select "My Account" in one of the upper menu bars.
- Then select "My Courses" and there you have option to view
 - Active registered courses
 - Your Transcript
 - Option to self-enter CME programs

You will still need to sign in with your Mayo email or LAN ID plus password and then get secondary verification through the Microsoft Authenticator app as you would signing in to Outlook on the web or Office.com unless already signed into Office.com or inside the Mayo firewall.
